SPRING/SUMMER 2027

In a world of a constant transformation,
where change is often synonymous of frenzy,
Nature offers us a totally different model:
a harmonious and slow cycle,
where each phase has its own time and purpose.
The seasons alternate in an eternal dance and following this natural
flow we created the SEM PLUS summer collection:

SPRING EQUINOX (MARCH, APRIL)

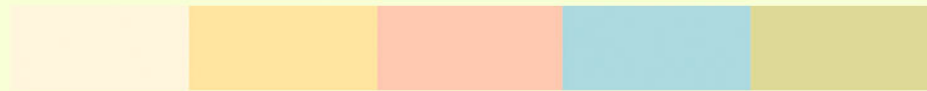

SUMMER SOLSTICE (MAY, JUNE)

SUMMER (END OF JUNE, JULY)

AUTUMN EQUINOX (AUGUST, SEPTEMBER)

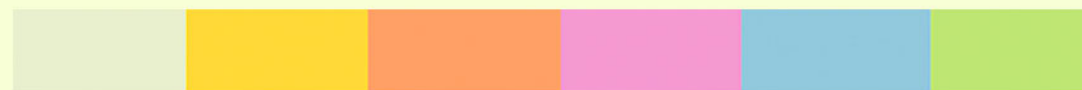

SPRING EQUINOX

Spring brings lightness, creativity and new beginnings. It's the moment of nature's awakening. An explosion of soft colors and the scents of bloomed flowers and budding plants.

SUMMER SOLSTICE

The sun warms the earth, the flowers are pollinated and turns into fruits. The colors become more bright and intense.

SUMMER

Summer represents vitality and fullness. It's time to celebrate life and finish the projects that have been started. The trees are enriched with fruits, the tall grass becomes a seasonal home for many small animals and insects that fly among the flowers; all the leaves born in spring grow strong under the summer sun's rays.

AUTUMN EQUINOX

Autumn invites us to descend. It's the season of harvest and balance, a moment to let go of what no longer belongs, to ready ourselves for what lies ahead.

Spring Equinox

CALLA 04385_022

A close-up photograph of orange blossoms. The image shows several flowers in various stages of bloom. Some are fully open, displaying white petals and prominent yellow stamens. Others are partially open or still in bud form, showing a mix of white and light pink/purple hues. The background is a soft-focus green, suggesting foliage. A white rectangular box is centered over the middle of the image, containing the text "Summer Solstice" in a gold-colored script font.
